I have the owners manual for all my Escorts and just put the information for my 97 in to test to make sure everything worked before I posted a link. But, there's no reason to get the entire thing reupholstered. Click here to learn how to repair leather car seats. And, that goes for fabric seats, too. Instead, you might be surprised by how easy it is to do it on your own. In most cases, the manufacturer of your car will sell a specific repair kit designed to match your interiors. This means that the color of the leather repair materials will most closely match the leather itself. Let things dry completely — at least a tenminute wait — before moving on. Especially if it's an older tear, it's likely that the leather material will have started to crinkle upwards, and that bare threads will be exposed. Now, slowly and gently put the backing cloth in the tear, pushing your cloth up underneath the hole. Use a butter or palette knife and put the filler on the cloth. Wait until every layer of filler has dried before adding more. Don't proceed with this step until everything is completely dry. Especially if you've had to sand a good amount of the backing down, chances are you've dirtied up the seat in the process. Then, paint over your patch job slowly and gently. As you've already come to expect, you'll have to wait until each layer dries fully before you apply another one. Are you looking for a list of good first cars for your child. Look no further because we've got the list of unique but quality cars that you need. It may not seem like much compared to the 15,098 average annual miles of 2034 yearolds.

Yet, you want to get your kid a car that can run those miles and still be affordable. Some parents get their teenagers old, beaten cars from a used car shop. For a family on a budget, that's no problem at all. Investing your money in a timeworn but still operational ride will be worth it. It has good bones, a removable hardtop, and straight lines. Furthermore, Velocity Restorations can always add more modern amenities on this sweet ride. It's a good starter car for any teenager. The best part is they get to choose how the restoration goes. Well, picking up this Scout 800 restoration project should be an interesting and worthwhile task for your kid. Let him work on his creative side. It will be his pride and joy to showcase a wellrestored Scout 800. After all, it's not every day you spot a 1971 International Scout 800 on the road. It allows them the space to bring friends on a road trip or an awesome vacation. Better yet, let them choose whether they like an SUV or a pickup truck body style. International Harvester was one of the best companies at creating simple SUVs. One thing is for sure it made a great best first car for many seniors. The International Harvester brand has a loyal following, and your kid will enjoy being a part of it. If he doesn't, he can always save up to buy a car of his own choosing. Get a custom interior for a cozier space. A lower suspension height gives the extra safety measure and better handling. There is an estimate of 250 U13 Roadsters left existing out of the 5000. With a car this unique and stylized, who's to deny such a gift Your kid can even choose to replace the engine with a Coyote engine for supreme performance. You'll also earn more "cool parent" points for it. It would make an awesome congratulatory gift for getting notable awards. The Scout 80 series was first of the offroad cars designed for civilians. And though it isn't clear, it may be the critical link between the military Jeep and the modern SUV.

Should your teenager want a powerful engine, let him have it. Custom touches and a new drivetrain will also give this car a personal twist. This is good news for parents who want their kids to learn to appreciate what they're given. It's also great for parents who only have a limited budget for their kids. It's a classic car from the Scout series, after all. It's not only reliable but also perfect for starters. If you're on a tight budget, get your kid to contribute for the restoration. Teach your children that all good things need selfdiscipline and patience. It's the best first car for teenagers who are also car enthusiasts. Restyled right, this reliable vehicle can last for a long time in possession of your child. It won't only be a perfect first for your kid's eventual car collection. It will also be one with sentimental value as it's a gift coming from you. They're not only good for fresh graduates, but they're also highend cars for beginners. Not bad for a first car at all. We offer quality, reliability, and great performance for all restoration projects by giving you the information you need for your next project. Since times are tight for lots of car buyers, it's no surprise that people are looking at the pros and cons of personal loans. This is an alternative that actually leads to getting you out of debt. If this is the case, consolidating all of your debts ensures that you get a better rate in the end. A personal loan might cost you less in the end. If you've got a lot of debt to worry about, let your personal loan be a benefit rather than an albatross. Every financial institution is going to offer you a different amount of credit they're willing to give. They're also going to give you a different amount of interest that other institutions might be able to beat. No matter how deep you are or whether you don't feel like you're in debt at all, the math doesn't lie.

If you can't afford basic necessities after taking on a new monthly payment, you need to find an alternative. Another monthly bill when you're already struggling with debt is too much to bear. If you take it on, you'll risk going under and having to claim bankruptcy. You could even lose your car depending on the situation. All of that work and all of that stress will be for nothing if you end up losing the one thing that you worked so hard to get. While it might not be feasible to meet that minimum of six months of expenses, it's essential to have at least enough to pay for a month of your bills. When you have this fund, you're operating on a financial tightrope without a net. When you lower the overall cost of the car and apply your rainy day fund to the sticker price, you're less likely to end up behind the eight ball. When you have a robust rainy day emergency fund, you can either pay for the car in part or ensure that the monthly payment is completely covered. To qualify, you need to have a score that's at least in the 600 range. If your score is worse than this or if you have no credit history, you might not qualify. It shows how often you've been trusted with this kind of money and how likely you are to spend it wisely. If you're not able to pay bills on time, your credit score will show that. However, your score still matters a lot. Since that's the case, straightforward auto loans usually have a lowinterest rate. If you can offer some type of collateral, you may be able to lower the rate. While this isn't available everywhere, so many dealers offer it, that it's become something many dealers have to compete with having. They depend on your credit history, how good you are with money, how good you'll be in the future and lots of other matters. If you're not sure whether you can pay a loan back, don't ever take one out. You might need to be able to reference

your vehicle's performance history or track your car in the event it's stolen.

Thirtyfour percent move to another county or state. You have to secure housing, pack your household, and hire movers to get your belongings to your new city. You probably didn't think about that, did you In this guide, we're giving you suggestions for the cheapest way to ship a car. You won't get the price you'd ask for if you placed an ad, but there are ways to get the most cash possible. Or, you could use the money for a down payment on that new car when you get to the Windy City. Did you know it takes about 14 hours to get through Texas If you have kids, you can show them sights they only heard about in school. If you need to rest for the night, opt for a historic hotel instead of a chain. Check the tires and top off all the fluids.

Check with your insurance carrier to ensure they're covered. But, they'd probably prefer to not be in a car during your sightseeing tour. The company covers insurance and screens the drivers, so it's less for you to worry about. It can also get pricey, especially if you have an exact date you need the

driver to arrive. You have a couple of options for this one. In general, this is the cheapest way to ship a car. But, if you're moving in winter or expect inclement weather, you can opt for an enclosed truck instead. Distance is one of them. The other is the size of your car. You'll need to find out if they're delivering your car to your new address or if you have to pick it up at their hub. Check all online reviews and even the Better Business Bureau. There could be some restrictions like the size and how far they're transporting your belongings. Adding a 4,000pound item is going to add quite a lot to your final bill. The Amtrak Auto Train can transport just about any vehicle from motorcycles to SUVs. The bad news is that the service runs from D.C. to Orlando, so you're a bit limited in destinations. And, if you're worried, you can drive an American car in the U.K. You'll have to find an international auto shipper or shipping company that can get your vehicle across The Pond. If they are, they won't have any hesitation in giving you the proof. In other words, if you live in Omaha, the company's closest departure spot may be Houston. You need to get your vehicle there. Time is the biggest one. Anytime you're shipping anything, putting a "rush" on it will cost you extra. Do they hold it there. Will they take it to a hub The most important factor is the one you're most comfortable with. Sometimes, you do get what you pay for. Do you know the eight easiest tips to extend your car's life. On some Fords, the owners manual suggests pumping the brake pedal 25 times before looking at the fluid level, be sure to check your owners manual to see if this applies to your 2002 Escort. In addition to checking the brake fluid level, you want to look at the color of the brake fluid in your Escort if it is dark in color or it has been more than 2 years since you have changed it, you should consider having it changed this will help make the internal components which are expensive last much longer. If you need to add fluid to your Escort, it is important to check your owners manual for the correct type to add it likely be either DOT 3, DOT 4 or DOT 5, also known as silicone brake fluid.

Be sure to discard bottles of brake fluid that are over a year old brake fluid sucks the moisture out of the air and the water vapor in the fluid can quickly rust out the brake lines in your Escort. The Ford Escort was a small family car that was manufactured by Ford from 1968 to 2004. The Ford Escort name was also applied to several different small cars produced in North America by Ford between 1981 and 2003. Ford has relaunched the Ford Escort on the Chinese car market in 2014. The Escort had conventional rearwheel drive and a four speed manual gearbox, or 3 speed automatic transmission.
