Questions and answers for working with our Professional cordless garden tools I downloaded the manual from Bosch Service there and I unable to find any idea in the manual to change the measuring unit. My friend told me that this Bosch DLE 150 able to change to the measuring uni feet Hope this helps, any problems come back to me. Regards BobShould you still be experiencing problems, please contact our Training Department and one of our trainers will be able to assist you on a onetoone basis. Kind regards.You have a reletively old rangefnder. The DLE 150 Laser is a superb unit although by todays standards a little a large, albeit extremely accurate and simple to use. In the middle of the unit you will note a large red button which is on and off. Hope that this clarifies the issue. Regards The Bob Team. I already try to press the button below the lightbulb symbol button. I try to change but failed. Your DLE 150 predates this. The DLE 150 has 13 buttons in two groups. Regards The Bob Team Any idea to change the board. Is the laser beam harmful to the eyes Only if this is correct, a result will be shown. Therefore, the device either shows a correct result within the scope of the specified measuring accuracy or no result at all. Due to the mechanical switching toIn order to exclude possible errors, the measurement is always made from the rear end of the device. Reasons for this are new optics and new powerful electronics.<http://songdolandmarkcity.com/userfiles/canon-ixy-930-is-manual.xml>

- **dle 150 laser manual, bosch dle 150 laser user manual, bosch dle 150 laser manual, 1.0, dle 150 laser manual, bosch dle 150 laser user manual, bosch dle 150 laser manual.**

Moreover, the DLE 150 is smaller and lighter than its predecessor. When they are hit by the laser point, light is reflected to the device and can interfere with the measurement. A reliable measurement is not possible any more. Wind however does normally not have any influence to the measurement result. The reason is that the brightness of the ambient light becomes more and more similar to the brightness of the laser beam. When there is strong ambient light, the use of the target panel is recommended. However, the DLE 150 is so powerful that for theIs the laser beam harmful to the eyes The normal eyeshutreflex of the human eye is sufficient in protecting it. All BOSCH measuring tools correspond to the laser class 2. The DLE 150 does not have a certificate because use in these areas is not intended. Post your question here in this forum. Bosch is

able to ensure flawless functioning of the unit only if the original accessories intended for it are used. Protection of the Unit Protect the unit from moisture and direct sunrays. However, an existing wireless connection is interrupted see Sections Installing the "BOSCH DLE 150" Software and Starting the "BOSCH DLE 150" Software. When switched on again, the DLE 150 Connect is in the same functional mode and shows the same display as before the automatic switchoff. Quitting the "BOSCH DLE 150" Software To quit the software, select the "End" menu item in the "File" menu on the menu bar. For working in exterior areas and with strong direct sunlight, use the optical sight ZO 4 30, the laser viewing glasses 28 and the target panel 29 accessory for better visibility of the laser point or shield the target surface.

Wireless Connection During the start of the "BOSCH DLE 150" software, the wireless connection is established see Starting the "BOSCH DLE 150" Software. The software checks the status of the wireless connection regularly. At the next measurement, the value is overwritten. In addition, the transmitted measured value can be entered in another application software at the same time when this software was started before the measurement. The last transmitted measured value can be checked here. Acknowledgement of the Measured Values For the usage of individual measured values in an application, the type of acknowledgement can be defined in the "BOSCH DLE 150". The symbol for area measurements appears in the upper part of the display. Then measure the length and width one after the other as for a length measurement. The individual values are transmitted automatically. The minimum measurement serves for determining the minimum distance from a fixed reference point. It is an aid, for example, for the determination of a vertical or horizontal distance. For minimum measuring, use the universal end piece 18. To switch to the minimum measuring mode, press the button 1 repeatedly until the. The clearing is not possible by means of the DLE 150 Connect. Storing the Measured Values. The distance between the DLE 150. In the "Help" menu of the "BOSCH DLE 150" software, the installed version of the software is shown under the "Info" menu item. Protection de l'appareil Ne pas exposer l'appareil directement au soleil. Puis mesurer successivement la longueur et la largeur tout comme pour une mesure des longueurs. Mesurage minimum cf. No desprender la placa de aviso del aparato. Bosch solamente puede garantizar el funcionamiento correcto del aparato si se utilizan los accesorios originales previstos. Este valor se sobrescribe al medir el valor siguiente. El borrado no puede realizarse con el DLE 150 Connect. Jamais abrir pessoalmente o aparelho.

Microsoft, Windows, ActiveSync e Excel sono marchi commerciali oppure marchi della Microsoft Corporation registrati negli Stati Uniti ed in altri Paesi. Mai aprire lo strumento personalmente. Protezione dello strumento Proteggere lo strumento dall'acqua e dall'azione diretta dei raggi solari. Quando il DLE 150 Connect viene di nuovo avviato torna a trovarsi nella stessa funzione e presenta sul display la stessa indicazione che aveva prima del disinserimento automatico. Lavorando con uno dei PC oppure PDA raccomandati, il software cerca automaticamente la connessione con tutti i DLE 150 Connect in funzione o che si trovano nel raggio di azione. A tal fine, seguire con lo sguardo lungo l'assistenza per allineamento superiore oppure laterale. Passaggio della connessione su un altro DLE 150 Connect. Misurazione continua vedi figura La misurazione continua serve al rilevamento di misure, p.es. da piani costruttivi. Questo serve p.es. in caso di rilevamento di diagonali. Per la misurazione del valore massimo utilizzare la base di appoggio universale 18. Tramite il Vostro fornitore far pervenire lo strumento al Servizio Clienti Bosch. Laat een reparatie alleen uitvoeren door de Boschklantenservice. Open het apparaat nooit zelf.
