Book Descriptions:

We have made it easy for you to find a PDF Ebooks without any digging. And by having access to our ebooks online or by storing it on your computer, you have convenient answers with Dn Mc6000 Manual . To get started finding Dn Mc6000 Manual , you are right to find our website which has a comprehensive collection of manuals listed.

Our library is the biggest of these that have literally hundreds of thousands of different products represented.

Book Descriptions:

Dn Mc6000 Manual

You can download and install the Denon ASIO driver from, but due to driver stability issues, the WASAPI Windows driver will be used instead of the Denon ASIO driver in VirtualDJ Audio Setup Mac OSX Driver Drivers are not required for Mac OS X computers. Firmware Update the firmware of the unit to the latest version Preparing the device. Look carefully at the rear side of your device. Locate the 3 USB Mode switchers on the back. Depending on your devices silkscreen, if it looks like figure 1, then Set A switcher on PC or MAC position depending on your OS. Figure 1 If it looks like figure 2, then Set A switcher on PC or MAC position depending on your OS. Set B switcher MIXING MODE to PC MIX position. Figure 2 VirtualDJ Setup Download and install VirtualDJ 8 from in case you have not done already Once VirtualDJ 8 is launched, a Login Window will appear. Login with your virtualdj.com account. A Pro Infinity, PLUS or Pro Subscription License is required to use the Denon MC6000. Without any of the above Licenses, the controller will operate for 10 minutes each time you restart VirtualDJ 8. A detection window will appear next, asking to use or not the predefined audio setup with the builtin sound card of the MC6000. The unit is now ready to operate. The factory default Mapping offers the functions described in this Manual, however those can be adjusted to your needs via VDJ Script actions. Find more details at AUDIO SETUP The unit has a predefined Audio setup and a special button in the AUDIO tab of Config to provide that. Alternative Audio setups can be applied in the same window see Advanced Audio Setup . For further VirtualDJ settings and features please refer to the User Guide of VirtualDJ 8. Layout. The DNMC6000 can be rackmounted and is supplied with 19" rackmount kit. This configuration also fully supports switching either or both Deck C and D to

Track Mode for full function 3 or 4 deck operation. The configuration uses sequenced compound modifiers to change and lock the controller decks into many specialty control states that use an entire deck to control special functions including 8 individual sample decks, the Loop Recorder, the Loop Move functions and the 3rd and 4th Effects

Update 2Nov2012 Minor Update for Traktor Pro 2 Ver 2.6 New Flux Mode, Auto Gain Control There is no need to use this update unless you have upgraded Traktor Pro 2 to Ver 2.5 If you are using Traktor Pro 2.1.x, use the included TP22.1x 17Feb2012 version If you are using Traktor Pro 2.0.x, use the included TP22.0x 13Jul2011 version Denon DNMC 6000 Pro Version 2.5 Downloads 19622 4 decks, 4 FX units Author Altamira Date 1122012 Download Controller Share I need a little practice with this. Can I translate your guide to Italian. Viper9711 wrote on May 31, 2011 at 2322 Respect. All Features in one Mappingbut you need an Overlay to forget nothing; RDJMBX wrote on June 4, 2011 at 0751 This is the best mapping I have ever seen for any controller. NI and the S4 can kiss my ass. Denon hit a homerun with the MC6000. Love it and Altamiras awesome mapping.Can someone help me. I cant import the tsi. Win7 64bit, login with admin rights. After import is nothing changed, the original mapping is active. Altamira replies If your import is still not working, I would first try a quick test by going into the configuration editor making a small change to your existing config such as adding a comment to a line Export your config remove the change then Import the file you Thimo wrote on June 30, 2011 at 1337 Im really glad that I finally found your mapping, but I still have some questions, maybe you can help me. Is there a way to deactivate the crossfader. Is it possible to swith out the blinki Altamira replies Thanks for giving my tsi a try. And finally.is it possible to let the samples run through, need to keep the button pushed for playing.Thats the best I ever used! Altamira replies I do not know of a way to load an unmuted sample from a playing track deck. Altamira replies Unless I am misunderstanding your naming convention outside sliders, it is already mapped that way. These sliders are also used for individual sample deck volume when sample deck modifiers are active.

Email me if you need more help.You will lose Load from Deck that Traktor combines with Retrigger. Now how would I go about doing that Altamira replies Are you Gemini220 on the NI Forum. I tried to post a solution for you to use with the Denon Mapping but get some moderator message. Use the email option here and I will reply with instructions to make it like the video. I want to add a new loop on a already taken sample deck. Loading a sample from a file or the Loop Recorder replaces the sample and does not require UNLOAD. PhaseShiftMusic wrote on September 11, 2011 at 0019 brother u have saved my life.I like your observations and comments on the Denon Forum. To add the multistate deck level indication, an additional modifiers is needed, but all are currently used. Send me an email and I can give some options. PhaseShiftMusic wrote on September 13, 2011 at 0222 so would u recommend using xtreme mapping it seems quite intuitive.This is an amazing mapping. Altamira replies Thank you for the kind words. I am working on an update for 2.1 that maps the new features and deals with some issues that it causes. There will be some other change to enhance usability. Just need to work out a few issues and test. Enjoy. Arclyte wrote on October 11, 2011 at 0119 Excellent work. I use your mappings exclusively now. If I may be so bold to ask is there a way to have the filter paramter buttons blink when the filter is engaged ie.I saw this feature on a new mixer and thought it made Altamira replies In this mapping I use blinking LEDs to represent modified states or alternate function indications. Active Filter is not one of these. If you still want it, send me an email, Ill make it and reply with a custom.tsi. Thimo wrote on October 14, 2011 at 1530 After working with this nearly perfect mapping for some month, I have a simple question again;. I really have problems with the volume, so is there a way to activate the volume control LEDs for the chanel 2 and 3.

<http://superbia.lgbt/flotaganis/1654767531>

To do it with mapping, midi commands for each LED have to be sent many times a second. I think it is a bad idea to ri MixMasterMark wrote on November 17, 2011 at 1748 What a great control set. Thanks for this! You made the MC6000 really fun to work with TSP2. Is there a way to default the Channel Volume Sliders down instead of up after loading a track. Altamira replies Vol.Down LoadAdd Vol.FaderButtonDirectSet0.000 mappings to accompany each of the 12 Load Selected command using same Note and Modifier combinations. Also see the PrefLoadingReset all mixer controls when loading track.Please check the Touch Sense Sensitivitysee MC6000 manual, might be too low I use Default0. Otherwise use Contact the Author to email me.Mortendj wrote on November 21, 2011 at 2044 I can not get your mapping to work. The only change I see by your mapping is that my jog wheel does work. The jog wheel will not work right when the 2.1.x tsi is used with Traktor 2.0.x Prodeo wrote on November 29, 2011 at 0156 I have been waiting for you to update to 2.1.1.Thank you. The first version is excellent. You have made me love my 6000. Keep up the good work. Very much appreciated.Thank you for the mapping. Not only it is very good but it has a comprehensive user manual. Denon should be giving you money for this mapping. Altamira replies I appreciate your kind comments and hope my mapping fits your style. A nice comment here and there is better than money. Denon or anyone else are welcome to use part or all of this mapping for free. MonTi wrote on January 12, 2012 at 1307 Hello!Unfortunately I could not find all the features. Mapping very awesome. Altamira replies You will definitely need the manual for this one Both a PDF and a MS Word version of the manual are in the ZIP File. If you need me to email it to you or answer specific questions about the mapping use Contact the Author to send me an email.

Davidvizion1862 wrote on January 13, 2012 at 0737 I have a qestion about recording my mix on Traktor, would it be the mapping or the program, when I record it records everything even the stuff in the cue. Altamira replies This is does not have to do with the mapping. I suspect that you are using external mixing and trying to record with the internal option.You can go throught the mapping and uncheck Soft Takeover box, unfortunately there are lots of lines with this option, so it migh DJ Taz wrote on February 23, 2012 at 1713 Need help I have Traktor pro 2.0.2 with the mapping loaded correctly and have updated the firmware on my 6000 to the latest from denon. If so hold SHIFT with a SAMP.N button green, it will flash while held, then press FX ON 1 small button next to CHG DECK button. If I misunderstood or you DJ Taz wrote on February 23, 2012 at 1719 and correction I am using 2.1.X Altamira replies need more help, use Contact the Author and send me an email.Thanks dj vinny. shadowin wrote on May 3, 2012 at 1754 Hi, amazing mapping. Just a question, I dont know how to change the vu meter. Why djmarcellorc wrote on May 8, 2012 at 1929 Hi ALTAMIRA, im from BRAZIL, and i started to use DENON MC 6000 since Denon comes.Great work! Just would like to know if you are planning an update of this mapping for 2.5 If so, any idea how long it will take. Very much appreciated! Mike DJ PEDRO wrote on June 9, 2012 at 0746 hello as set up for faders 1 and 4 WORKING WITH THE DECKS CYD THANKS Altamira replies Im not sure I understand; but if you are not seeing control of CH1,4 faders, check that the input selector knobs are on MIDI.PLEASE HELP ME !!! MaurizioAlessio wrote on July 17, 2012 at 0212 Hi Altamira, I have a question, this thing has been bothering me a lot. I use Traktor 2.1 version and of course a Mc6000.

But suddenly when Im playing, the Mc6000 stops controlling the parameters on the computer, im saying that I move the faders,knobs o Altamira replies I would first try disabling power management settings, especially the ones for the USB Root Hubs. MaurizioAlessio wrote on July 17, 2012 at 0214 or press the buttons, but it doenst change anything in the computer. What could be the reason for this to happen.Please send me an answer! djlt88 wrote on October 19, 2012 at 1141 Hi Altimira, I am using your mapping with Traktor 2.5 and MC6000 on Windows 7. Firstly thanks for an amazing mapping, this is the best mapping for traktor I have ever used. I have only been using Traktor for DJ sets for a few weeks now, I am a convert fro djlt88 wrote on October 19, 2012 at 1144 from another software. I have a small issue with looping. If we assume I load a track with multiple CUES and lets

assume CUE1 is the start of a vocal, CUE2 is the start of beat 1. I set track position to CUE1 and set autoloop to 16. The track with now lo djlt88 wrote on October 19, 2012 at 1146 The track will now loop normally. However, for mixing correctly I need to start the loop from CUE2 not CUE1. In my previous software I could set the start of the loop and loop length as with this mapping djlt88 wrote on October 19, 2012 at 1149 But I could jump to any other CUE point whilst the loop is active provided the CUE lies within the loop. If I try this with your mapping, when I pause the loop and press CUE2, the AUTOLOOP LED stays active but the loop is exited. I have to press shift o djlt88 wrote on October 19, 2012 at 1151 or AUTOLOOP again to turn off red LED and start loop process all over again. Is this meant to occur or is this a bug. The only way for me to achieve a correct mix is to setup loop from CUE 1 then manually scroll to CUE2 position and press play when desired djlt88 wrote on October 19, 2012 at 1151 desired. Thanks in advance for your help. Cheers Lewis dj.

fons wrote on November 7, 2012 at 1840 hi altamira,Is there a way that i can activate djvroeede wrote on January 29, 2013 at 2050 Hi altamira. Thanks for the great mapping, i have a question. Maybe i read it wrong but how can i change the sample to one shot or loop.Could you tell me what im doing wrong.Being also the first time I use this program, it was very difficult, and now cause I start to understand it, I rest very Imprese Gigi wrote on February 22, 2013 at 0103 about your work. I just can say God bless you, and thank you very much. Please When youll have a little time, try to bring some light in thease situation, in a more explicit way, because here no Gigi wrote on February 22, 2013 at 0118 nobody understand nothing about mappings. Escuse my poor english, and thank you one more time, for such am amazing mapping. I Hope you can help me with this problem, some way that I can understand. Have a good time ! Gigi wrote on February 22, 2013 at 0119 I use traktor 2.6 Gigi wrote on February 22, 2013 at 0140 Now I have seen that DjStyles above, it has the same half problem I have. Maybe we have done something wrong, some where ! Altamira replies I am trying to figure out the problem you and DjStyles are having, but have not yet been able to recreate the symptoms you describe. Let me investigate further and hopefully I can solve the problem. Toeser wrote on March 2, 2013 at 1202 If you have a second mapping, delete it, it may solve your problem. Perhaps import altamiras mapping again after that. Is it possible to let the loop be active after pressing a hotcue, so I have to deactivate it on myself. Toeser wrote on March 2, 2013 at 1339 Ok saw that a hotcue is also a mini loop, therefore it wouldt be possible. But perhaps you know a solution loop lights on the denon, when prssing a hotcue. Gigi wrote on March 3, 2013 at 2229 Thank you very much Michael, I really appreciate your effort, and hopefully I wait for some solution. You have my regards.

Gigi wrote on March 4, 2013 at 0010 Michael, Im asking my self imagining how bizzzy you are. After importing the mapping, the browser wheel jumps 23 songs. When I delete the mapping everything is fine again. Altamira replies Gigi, I think Toeser is right. I recreated the issue by using the Add.Import at the top of the Controller Manager window and importing the mapping multiple times. Instead use the Import buttom at the bottom of the dialog window. JackLeather wrote on March 18, 2013 at 1233 Hi. Great mapping thanks for all the hard work. The only issue i have found is the LED vu meters that is they only work when the switch is in master position any chance you could fix it. I think it is a bad i Carpo wrote on June 30, 2013 at 0044 The best MC6000 mapping I have tried. Carsten Poulsen. Carpo Roadshow. I was wondering if it would be possible to make the loop in and loop out buttons on the MC6000 lit in a dimmer state like you have the cue buttons and then have them go brighter when you press them.GREAT MAP cesaryn wrote on November 13, 2013 at 1415 add a update this mapper of the version 2.6.4 thankyou Thimo wrote on March 22, 2015 at 1402 Long time, no see.but I really found another question. I was used to work with only two effects, but wenat to use more now. How can I get the effects 3 and 4 Where do I push.and.how can I set wich effekts will be there. I think I used soft takeover on the knobs so you may n Thimo wrote on April 13, 2015 at 1305 Many Thanks. Have you ever thought about making a mapping for the MK 2 Version. The old Denon is going to die soon and I think about the new one.but not without a mapaping like

THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER OR BACK. Operation is subject to the following two conditions 1 this product may not cause harmful interference, and 2 this product must accept any interference received, including interference that may cause undesired operation. Denon Professional div. Modification not expressly approved by DENON may void your authority, granted by the FCC, to use the product. 3. NOTE This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the product OFF and ON, the user is encouraged to try to correct the interference by one or more of the following measures Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the product into an outlet on a circuit different from that to which the receiver is connected. Read these instructions. 2. Keep these instructions. 3. Heed all warnings. 4. Follow all instructions. 5. Do not use this apparatus near water. 6. Clean only with dry cloth. 7. Do not block any ventilation openings.

Install in accordance with the manufacturers instructions. 8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus including amplifiers that produce heat. 9. Do not defeat the safety purpose of the polarized or grounding type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped. 15. Batteries shall not be exposed to excessive heat such as sunshine, fire or the like. IMPORTANT SAFETY

INSTRUCTIONS READ BEFORE OPERATING EQUIPMENT This product was designed and manufactured to meet strict quality and safety standards. Handle the power cord carefully. Hold the plug when unplugging the cord. Keep the unit free from moisture, water, and dust. Unplug the power cord when not using the unit for long periods of time. Do not obstruct the ventilation holes. Do not let foreign objects into the unit. Do not let insecticides, benzene, and thinner come in contact with the unit. Never disassemble or modify the unit in any way. Ventilation should not be impeded by covering the ventilation openings with items, such as newspapers, tablecloths or curtains. Naked flame sources such as lighted candles should not be placed on the unit. Observe and follow local regulations regarding battery disposal. Do not expose the unit to dripping or splashing fluids. Do not place objects filled with liquids, such as vases, on the unit. Do not handle the mains cord with wet hands. When the switch is in the OFF position, the equipment is not completely switched off from MAINS.

The equipment shall be installed near the power supply so that the power supply is easily accessible. Vermeiden Sie hohe Temperaturen. Beachten Sie, dass eine ausreichende Belüftung gewährleistet wird, wenn das Gerät auf ein Regal gestellt wird. Gehen Sie vorsichtig mit dem Netzkabel um.
