Have you ever left documents behind at a multifunction device or printer or picked up documents that were left unattended in the output tray. Do you want to restrict unauthorised usage of your multifunction device or printer. These problems are solved with the implementation of an IC Card Reader. Authentication is as easy as a touch of a proximity card over the IC Card Reader. Authentication is done when the IC Card Reader scans the card held in front of it. IC Card Reader supports proximity cards frequently used as employee ID cards or admission cards such as HID Prox, MIFARE, and FeliCa. IC Card Reader also allows combined use of multiple card formats.

Most importantly, IC Card Reader can set priorities Reading Areas on Proximity Card This prevents information leaks to those unauthorised users without IC cards Our extensive network of representatives can help you choose the right solutions for your business needs.
