You will find a schematic of the panel with the model number there. Hope this helps. Need owners manual to be more specific.It is on Sonys website and in many lanuages. The easy way to find it is to Google search, Sony DSC w110 and look for a sony website link in the first few results. There is an option on the sony page to download the user manual.Unable to enter trouble menu How can I turn this off please. We do not use the alarm. I turned the main power switch off for it, but still beeps. I also just got a new iinet modem of which plugs into the phone line. Would this be causing the alarm to keep beeping Thanku DSC system Answer questions, earn points and help others. Since the company's genesis, the experts at DSC have been leading the way. From our revolutionary control panels, to our industryleading IP alarm monitoring products and now to our sleek, contemporary selfcontained wireless panels, DSC has always been front and center in the security space. ISO 9001 Registered. At times there may be a trouble condition on the keypad on your commercial security alarm system that is going in and out of "trouble" example low battery. This intermittent trouble will cause the keypad to beep intermittently as well that may cause inconvenience to you and the employees in your business while we coordinate a time to have a tech on site to rectify your problem. Acknowledging the trouble to silence the keypad will require an acknowledgement after each new signal. The keypad will sit at the last desired volume, or silence until the asterisk is

pressed again.
