Coverage is subject to the terms and conditions of your New Vehicle Limited Warranty. See Owners Warranty and Maintenance Guide for details. Starting with the 2020 model year, every Toyota hybrid battery warranty is being increased from 8 years or 100,000 miles, to 10 years from date of first use, or 150,000 miles whichever comes first. This enhancement serves as an indication of our confidence in the quality, dependability, and reliability of our products. The HV battery may have longer coverage under emissions warranty. For Toyota hybrid vehicles beginning with model year 2020, the hybrid HV battery is covered for 10 years from original date of first use or 150,000 miles, whichever comes first. Coverage is subject to the terms and conditions of your New Vehicle Limited Warranty. See Owners Warranty and Maintenance Guide for details. Most have 12month coverage, and there arent many, if any, companies that offer a longer guarantee.

Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty. So we thought the TCUV Warranty should be just as thorough. The HV battery may have longer coverage under emissions warranty. We also add a 1year 24hour Roadside Assistance Plan 4 from original date of TCUV purchase. For the enhanced peace of mind of an available Extended Vehicle Service Agreement, please visit Toyota Financial Services. You can tone and strengthen the important muscle groups of your upper and lower body. This type of exercise is vital for all of us, regardless of age, sex, or fitness level. Strength training not only tones and conditions the muscles we use every day to stand, walk, lift, and turn; it can actually transform our body composition. By reducing body fat and increasing the proportion of lean muscle in our bodies, strength training can effectively turn up our metabolic thermostat, so that we burn calories all the time, no matter what we're doing. Be sure to read through your Total Gym Owner's Manual carefully. It is the authoritative source of information for your Total Gym.

We have provided you with an easy link to download our general owners manual for all Cruiser RVs, a list of our vendors in case you need to get information or service on a particular part, and a number of our most frequently asked questions. If you can't find what you are looking for here, please do not hesitate to drop us a line at our contact us page. A PDF reader is required to view it. If needed you can get Adobe Acrobat Reader to read this file. Registering will ensure that the Cruiser RV servicing dealer network will be better prepared to meet all your needs. Used units, or those purchased through auction, do not need to be registered. Please place all requests through your preferred dealer. Need to find a dealer. Use the Dealer Locator page or call us at 260 5623500. You can find it stamped on the a-frame, as well as on the Federal weight sticker on the offside of the trailer and on the yellow Cargo Capacity sticker inside the entry door. However, it is not recommended that you use chairs on the roof. Some models offer a ladder as optional equipment. It is not recommended that you ever try to install a ladder yourself; we recommend you consult your selling dealer. Road dust can stick to surfaces, causing scratching from grit. Avoid ammonia or caustic cleaners. Rubbing compound, cleansers, or other abrasives can scratch or weaken the finish.

Avoid spinning brushes and high pressure washing, especially over decals. This can lead to finish scratches and abrasion of trailer decals. Tarps are recommended because they protect from UV sunlight damage, leaf stains, and other factors. As with used cars, the condition of the unit, age, and your locality will affect the final price. With so many factors to consider, Cruiser RV cannot make judgments about your particular trailer, even if it is a Cruiser model. Need a dealer Use the Dealer Locator page or call us at 260 5623500. The furnace, propane water heater, most lighting, range hood, monitor panel, roof vent fans, and other items run off of this. How long your battery will last depends on usage, outside temperature, and condition of your battery. You must be connected to a shore line or use a generator to have this power. Your microwave, air conditioner, and television are

notable appliances that run only on shore power. Automotive batteries are made to be constantly recharged by the cars alternator and will not provide long service in a trailer because of limited charge cycles. Deep cycle batteries are built to be drained and recharged multiple times. Use a wire brush to remove any corrosion. Many systems in your trailer depend on battery power, so keep this in your pretrip checklist for happy camping. Please contact your selling dealer to inquire on any assistance you may need, and Cruiser RV will try to assist if possible. Running more than one high drain appliance on the circuit is generally at fault. Look especially for appliances that generate heat as the culprit, such as coffee makers, microwaves, toasters, hair dryers, and curling irons. Peoples breath adds moisture, along with washing, showering, cooking and drying of wet items. This is unpleasant and notoriously difficult to remove. Open windows and use vent fans to compensate. While showering or cooking, use vents to keep moisture levels from growing.

Get in the habit of running vent fans proactively when doing these activities. Crack windows and vents at night while sleeping. Aim to reduce humidity before condensation forms in cracks and crevices. These areas dry more slowly and are prime mildew locations. This number is derived from the combination of each axle rating plus the hitch weight. That number is calculated at the factory with calibrated scales, and is made of 2 components AXLE WEIGHT and HITCH WEIGHT. The scale under the hitch reads 410 pounds. The DRY WEIGHT would equal 4,591 pounds Once you subtract it from the cargo weight, the tires are within specification and not overloaded. These outlets have two buttons, T for Test and R for Reset. Press in the R button to reset the outlet. Wet appliances or faulty wiring can cause this. Try a different dry appliance on the circuit first. If the problem persists with multiple appliances, it may be the wiring in the trailer. Have a certified Cruiser RV dealer repair center diagnose and perform electrical repairs. In an effort to get you the quickest response possible, below are phone numbers for the manufacturers of many of the items used in your RV. Check the brand name on the product to determine the correct vendor. This list is provided for your benefit, so that you can quickly speak to the product manufacturer directly. If you prefer to work through Cruiser RVs Network of Authorized Dealers and need assistance in locating your nearest dealer or authorized service center, feel free to contact Cruiser RV Customer Service at 260 5623500. Be sure to review a current model at your nearest authorized Cruiser dealer and discuss and review with your dealer any possible changes on new products being ordered from the factory. Your dealer has access to the latest information and training and is in the best position to provide you with quality parts and service. Need to do a little troubleshooting on your Kirby system.
