TP 000 119 Rev 1.01 You must return the disk or manual to Verity Systems or an authorized Verity Systems dealer within the warranty period accompanied by proof of purchase. Nor may you rely on such oral or written communication. Some states do not allow the exclusion or limitation of implied warranties or liability for incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state. If there are missing or damaged parts contact Verity Systems or an authorized distributor immediately. Remove the tape holding down the printer lid. Open the lid and remove the piece of foam holding the CD Tray in place. This packaging was designed specifically for shipping your OptiPrinter PRO. Other packaging may not be suitable.

The lights give you visual clues about the status of the printer. When the action is completed, press the Resume Button to continue printing. If a multiple print command is sent from a PC, the first CD is printed as normal. Then when the CD tray is ejected, the resume light will flash. Place a new CD into the tray and press the Resume button. The CD tray will retract and the CD will be printed and so on for the number of copies requested. It may take a few seconds for the printer to turn on after you press the Power button. The green light flashes when the printer is processing. Using a power strip, surge protector, or a wallmounted switch to turn the printer on and off may cause printer failure. Place a CD onto the tray ensuring that the disc sits against the two pins at the front of the tray as shown below in Fig. 2 The adaptors come in two parts. Close the top cover. If connected, remove the USB and power cables from the printer. There may be variations in the following instructions depending on operating system 2000 or XP and configuration. When prompted, click Install to begin installation. In Windows XP, select Continue Anyway. Switch on the printer. In Windows XP, select Continue Anyway. In Windows XP select No, not at this time and click Next. In Windows XP, select Continue Anyway. For a better experience, please enable JavaScript in your browser before proceeding. Playback mode isn't supported in this firmware release. User can then select "execute" or "cancel" directly. However it takes about 13 seconds to display all of the information which is set to "ON" on the "Output Display" page under "Video" menu. Any key operations including REC button in 13 seconds are disregarded. In other words, an MPEG2 HD422 clip with IN and OUT points edited by Content Browser. However peak hold function displays maximum level correctly. Since current available viewfinders i.e. DVFL350, L700 and EL100, have their own Focus Magnifier button, Focus Magnify function cannot be assigned. Then the card cannot be accepted by the camera.
