increase eye hazard. Refer servic ing to qualified personnel only. This symbol is intended to alert the
user to the presence of uninsulated "dangerous voltage" within the product's enclo sure that may be
of suff icie nt magnitude to constitute a r isk of electric s hock to persons. This symbol is intended to
alert the user to the presence of important operating and maintenance servici ng instruct ions in the
literature accompanying the appliance. CAUTION You are cautioned t hat any changes or
modifications not expressly approved in this manual could void your authority to operate this
equipme nt. For cu stom ers in t he U.S.A Owne r's Re cord The model and ser ial numbers are
located a t the rear o f the uni t. Record the s erial number in the space provided below.

These limit s are designed to provide reasonable protection against harmful int erference in a
residentia l installation. This equipment generates, uses, and can radiate radio frequency energy
and, if not installed and used in accordance with th e instructions, may cause har mful interference t
o radio communications. However, there is no guarantee that interfer ence will not occur in a
particular ins tallation. Do not touch the surface.Carefully observe all warnings, pr ecautions and
instructions on the appliance, or the one described in the operating instructions and adhere to them.

Use Installation Power sources This set should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of electrical power supplied to your home, consult your dealer or local power company. For those sets designed to operate from battery power, or other sources, refer to the operating instructions. **Grounding or Polarization** This set is equipped with a polarized ac power cord plug a plug having one blade wider than the other, or with a threewire grounding type plug a plug having a third pin for grounding. Follow the instructions below For the set with a polarized A C power cord plug This plug will fit into the power outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the plug. If the plug should still fail to fit, contact your electrician to have a suitable outlet installed. Do not defeat the safety purpose of the polarized plug by forcing it in. For the set with a threewire grounding type A C plug This plug will only fit into a groundingtype power outlet. If you are unable to insert the plug into the outlet, contact your electrician to have a suitable outlet installed. Do not defeat the safety purpose of the grounding plug.

Overloading Do not overload wall outlets, extension cords or convenience receptacles beyond their capacity, since this can result in fire or electric shock. **Object and Liquid Entry** Never push objects of any kind into the set through openings as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock. Never spill liquid of any kind on the set. **Attachments** Do not use attachments not recommended by the manufacturer, as they may cause hazards. **Cleaning** Unplug the set from the wall outlet before cleaning or polishing it. Do not use liquid cleaners or aerosol cleaners. Use a cloth lightly dampened with water for cleaning the exterior of the set. **Water and Moisture** Do not use power line operated sets near water for example, near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, etc. **Power Cord Protection** Route the power cord so that it is not likely to be walked on or pinched by items placed upon or against them, paying particular attention to the plugs, receptacles, and the point where the cord exits from the appliance. **Accessories** Do not place the set on an unstable cart, stand, tripod, bracket, or table. The set may fall, causing serious injury to a child or an adult, and serious damage to the set. Use only a cart stand tripod, bracket, or table recommended by the manufacturer. An appliance and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the appliance and cart combination to overturn. An outdoor antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can come in contact with such power lines or circuits.

Section 810 of the National Electrical Code provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrode. **Antenna Grounding** According to the National Electrical Code **Lightning** For added protection for this set during a lightning storm, or when it is left unattended and unused for long periods of time, unplug it from the wall outlet and disconnect the antenna or cable system. This will prevent damage to the set due to lightning and power line surges. Adjust only those controls that are specified in the operating instructions. **Servicing** Do not attempt to service the set yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel. **Replacement parts** When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer that have the same characteristics as the original parts. Unauthorized substitutions may result in fire, electric shock, or other hazards. **Safety Check** Upon completion of any service or repairs to the set, ask the service technician to perform routine safety checks as specified by the manufacturer to determine that the set is in safe operating condition. To disconnect the AC power cord, grasp the plug it self; never pull the cord. Should this

occur, the player may not operate properly. If you don't, the disc may be damaged. For the model supplied with the AC plug adaptor If the AC plug of your unit does not fit into the wall outlet, attach the supplied AC plug adaptor. On adjusting volume Do not turn up the volume while listening to a section with very low level inputs or no audio signals.

If you do, the speaker may be damaged when a peak level section is played. On cleaning Clean the cabinet, panel, and controls with a soft cloth slightly moistened with a mild detergent solution. Do not use any type of abrasive pad, scouring powder or solvent such as alcohol or benzene. These may cause the apparatus to malfunction. On replacement of parts In the event that this unit is repaired, repaired parts may be collected for reuse or recycling purposes. If you leave the still video image or on screen display image displayed on your TV for an extended period of time you risk permanent damage to your television screen. Plasma display panel televisions and projection televisions are susceptible to this. This system is used to protect copyrights. Commercial DVDs labeled will also play on this player. If you try to play any other commercial DVD, the message "Playback prohibited by area limitations." will appear on the TV screen. Depending on the commercial DVD, there may be no region code indication, even though playing the commercial DVD is prohibited by area restrictions. In this case, view the disc by normal playback. However, since the audio material side does not conform to the Compact Disc CD standard, playback on this product is not guaranteed. Note on playback operations of DVDs and VIDEO CDs Some playback operations of DVDs and VIDEO CDs may be intentionally set by software producers. Since this player plays DVD s and VIDEO CDs according to the disc contents the software producer's design, some playback features may not be available. Also, refer to the instructions supplied with the DVDs or VIDEO CDs. Copyrights This product incorporates copyright protection technology that is protected by U.S. patents and other intellectual property rights.

Use of this copyright protection technology must be authorized by Macrovision, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision. Reverse engineering or disassembly is prohibited. To turn off the display Press DISPLAY. Input the time code for picture and music searching. SHUFFLE page 30 Plays the title, chapter, or track in random order. AB REPEAT page 32 Specifies the parts you want to play repeatedly. CUSTOM PICTURE MODE page 44 Adjusts the video signal from the player. You can select the picture quality that best suits the program you are watching. SHARPNESS page 46 Exaggerates the outline of the image to produce a sharper picture. PARENTAL CONTROL page 54 Set to prohibit playback on this player. SETUP page 58 QUICK Setup page 21 Use Quick Setup to choose the desired language of the onscreen display, the aspect ratio of the TV and the audio output signal. CUSTOM Setup In addition to the Quick Setup setting, you can adjust various other settings. RESET Return the settings in "SETUP" to the default setting. ALBUM page 34 Selects the album that contains MP3 audio track and JPEG image file to be played. FILE page 34 Selects the JPEG image file to be played. DATE page 51 Displays the date the picture was taken by a digital camera. INTERVAL page 52 Specifies the duration for which the slides are displayed on the screen. EFFECT page 53 Selects the effects to be used for changing slides during a slide show. The "CUSTOM PICTURE MODE" indicator lights up in green when any setting other than "STANDARD" is selected. MODE MP3, JPEG page 52 Selects the data type; MP3 audio track AUDIO, JPEG image file IMAGE, or both AUTO to be played when playing a DATA CD or DATA DVD. When using the remote, point it at the remote sensor on the player.

Select one of the patterns A or B, according to the input jack on your TV monitor, projector, or AV amplifier receiver. In order to view progressive signal 480p pictures with a compatible TV, projector, or monitor, you must use pattern B. You will enjoy standard quality images. You will enjoy accurate color reproduction and high quality images. If your TV accepts progressive 480p format signals, use this connection and set "PROGRESSIVE COMPONENT OUT" in "SCREEN

SETUP " to "ON" page 61 to output progressive signals. When connecting to a wide screen TV depending on the disc, the image may not fit your TV screen. To change the aspect ratio, see page 60. Note Do not connect a VCR, etc., between your TV and the player. If you pass the player signals via the VCR, you may not receive a clear image on the TV screen. This will enable you to listen to sound. If this message does not appear, select "QUICK" under "SETUP" in the Control Menu to run Quick Setup page 59. 4 Press ENTER without inserting a disc. The player displays the menu and subtitles in the selected language. 6 Press ENTER. The Setup Display for selecting the aspect ratio of the TV to be connected appears. ENTER LANGUAGE SETUP OSD MENU AUDIO SUBTITLE FRENCH ENGLISH ENGLISH SPANISH PORTUGUESE SCREEN SETUP TV TYPE SCREEN SAVER BACKGROUND 43 LETTER BOX 43 PAN SCAN PROGRESSIVE COMPONENT OUT MODE PROGRESSIVE OFF OFF 43 LETTER BOX BLACK LEVEL BLACK LEVEL COMPONENT OUT AUTO 169 43 OUTPUT FULL, continued If your AV amplifier receiver has a DTS decoder, select "ON." Otherwise, select "OFF." 13 Press ENTER. Quick Setup is finished. All connections and setup operations are complete. YES NO Is this player connected to an amplifier receiver. Select the type of jack you are using. The player starts playback continuous play. Adjust the volume on the TV or the amplifier receiver.

Depending on the disc, a menu may appear on the TV screen. For DVD VIDEOS, see page 26. For VIDEO CDs, see page 27. The player enters standby mode. To turn this function on or off, set "AUTO POWER OFF" in "CUSTOM SETUP" to "ON" or "OFF" page 62. Note Discs created on DVD recorders must be correctly finalized before they can be played. For more information about finalizing, refer to the operating instructions supplied with the DVD recorder. A loud noise may come out from the speakers, affecting your ears or causing the speakers to be damaged. ENTER RETURN Playback side facing down, continued Note You may not be able to use the Replay or Advance function with some scenes. Playback quickly or slowly with sound You can listen to dialog or sound while playing the current scene quickly or slowly. During playback, press FAST PLAY or SLOW PLAY. The speed changes when you press either FAST PLAY or SLOW PLAY. To return to normal playback Press H. Locking the disc tray Child Lock You can lock the disc tray to prevent children from opening it. The player turns on and "LOCKED" appears on the front panel display. Note Even if you select "RESET" under "SETUP" in the Control Menu page 59, the disc tray remains locked. Press CLEAR to cancel. If you store a resume playback point for the seventh disc, the resume playback point for the first disc is deleted. 1 While playing a disc, press x to stop playback. "RESUME" appears on the front panel display. 2 Press H. The player starts playback from the point where you stopped the disc in step 1. z Hint To play from the beginning of the disc, press x twice, then press H. When you play DVD VIDEOS that allow you to select items such as language for the sound and subtitles, select these items using the MENU button. 1 Press TOP MENU or MENU. The disc's menu appears on the TV screen.

ENTER MENU TOP MENU Number buttons 1 ENTER DISPLAY 1 8 3 4 1 2 2 7 DVDVR PLAY LIST PLAY LIST ORIGINAL T 1 3 2 5 5 Refer to the instructions supplied with the disc, as the operating procedure may differ depending on the VIDEO CD. To return to the menu Press O RETURN. ENTER RETURN Number buttons, continued To return to PBC playback, press x twice then press H. Note Depending on the VIDEO CD, "Press ENTER" in step 3 may appear as "Press SELECT" in the instructions supplied with the disc. In this case, press H. Creating your own program Program Play You can play the contents of a disc in the order you want by arranging the order of the titles, chapters, or tracks on the disc to create your own program. The options for "PROGRAM" appear. When the program ends, you can restart the same program again by pressing H. To return to normal play Press CLEAR, or select "OFF" in step 3. To play the same program again, select "ON" in step 3 and press ENTER. To cancel a program, select "" under "T," then press ENTER. To cancel all of the titles, chapters, or tracks in the programmed order 1 Follow steps 1 to 3 of "Creating your own program Program Play." 2 Press X and select "ALL CLEAR." 3

Press ENTER. z Hint You can perform Repeat Play or Shuffle Play of programmed titles, chapters, or tracks. During Program Play, follow the steps of Repeat Play page 31 or Shuffle Play page 30. Playing in random order Shuffle Play You can have the player "shuffle" titles, chapters, or tracks. Subsequent "shuffling" may produce a different playing order. 1 Press DISPLAY during playback. After selecting the "SHUFFLE" option, press H. Note You cannot use this function with VIDEO CDs or Super VCDs with PBC playback. You can use a combination of Shuffle or Program Play modes. 1 Press DISPLAY during playback. To return to normal play Press CLEAR, or select "OFF" in step 3.

z Hint You can set Repeat Play while the player is stopped. After selecting the "REPEAT" option, press H. The "AB REPEAT" setting bar appears. 4 During playback, when you find the starting point point A of the portion to be played repeatedly, press ENTER. The starting point point A is set. 5 When you reach the ending point point B, press ENTER again. The set points are displayed and the player starts repeating this specific portion. Locating a point quickly by playing a disc in fast forward or fast reverse Scan Press S or M while playing a disc. When you find the point you want, press H to return to normal speed. Each time you press S or M during scan, the scan speed changes. With each press the indication changes as shown below. Actual speeds may differ between discs. To return to normal speed, press H. Each time you press S or M during Slow motion Play, the playback speed changes. Two speeds are available. Press STEP to go to the preceding frame DVD only. To return to normal playback, press H. Note You cannot search for a still picture in DVDVR mode. As titles and tracks are assigned unique numbers on the disc, you can select the desired one by entering its number. You can also search for a scene using the time code. 1 Press DISPLAY When playing a DATA CD or DATA DVD with JPEG image files, press twice . ENTER DISPLAY CLEAR Number buttons When playing a VIDEO CD or Super VCD without PBC Playback TRACK INDEX. When playing a VIDEO CD or Super VCD with PBC Playback SCENE. When playing a CD TRACK. If you make a mistake Cancel the number by pressing CLEAR, then select another number. 5 Press ENTER. The player starts playback from the selected number. You can start playback directly by selecting one of the scenes. For details, see "Searching by Scene PICTURE NAVIGATION" page 36.

PLAY 1 8 3 4 1 2 2 7 DVD VIDEO T 1 3 2 5 5 Selected row PLAY DVD VIDEO 1 2 2 7 T 1 3 2 5 5 3 4 Playback starts from the selected scene. To return to normal play during setting Press O RETURN or DISPLAY. To display the additional chapters, titles, or tracks, select the bottom scenes and press x. To return to the previous scene, select the top scenes and press X. Note Depending on the disc, you may not be able to select some items. DISPLAY PICTURE NAVI RETURN ENTER CHAPTER VIEWER ENTER 1 4 7 2 5 8 3 6 9 Checking the information on the front panel display You can view the time information and text displayed on the TV screen also on the front panel display. The information on the front panel display changes as follows when you change the time information on your TV screen. When playing a DVD BRAHMS SYMPHONY T 1730 128k JAZZ RIVER SIDE Bit rate Album name Track name Playing time of the current title Remaining time of the current title Playing time of the current chapter Remaining time of the current chapter Text Current title and chapter number returns to top automatically With CDs, DATA CDs, DATA DVDs, or VIDEO CDs, you can select the sound from either the right or left channel and listen to the sound of the selected channel through both the right and left speakers. For example, when playing a disc containing a song with the vocals on the right channel and the instruments on the left channel, you can hear the instruments from both speakers by selecting the left channel. 1 Press AUDIO during playback. The following display appears. 2 Press AUDIO repeatedly to select the desired audio signal. When playing a DVD VIDEO Depending on the DVD VIDEO, the choice of language varies. When 4 digits are displayed, they indicate a language code. See "Language Code List" on page 71 to see which language the code represents.

When the same language is displayed two or more times, the DVD VIDEO is recorded in multiple audio formats. When playing in DVD VR mode the types of sound tracks recorded on a disc are displayed. The default setting is underlined. Example Dolby Digital 5.1 ch Example Dolby Digital 3 ch About audio signals Audio signals recorded in a disc contain the sound elements channels shown below. This only works when playing a multichannel Dolby audio sound track. Furthermore, if the player is set up to output the signal from the DIGITAL OUT COAXIAL jack, the surround effect will only be heard when "DOLBY DIGITAL" is set to "DPCM" in "AUDIO SETUP" page 63. 1 Press SUR during playback. The following display appears. 2 Press SUR repeatedly to select one of the TVS sounds. This mode is effective when the distance between the front L and R speakers is short, such as with built in speakers on a stereo TV. TVS DYNAMIC Creates one set of virtual rear speakers from the sound of the front speakers L, R without using actual rear speakers shown below. This mode is effective when the distance between the front L and R speakers is short, such as with built in speakers on a stereo TV. TVS WIDE Creates five sets of virtual rear speakers from the sound of the front speakers L, R without using actual rear speakers shown below. This mode is effective when the distance between the front L and R speakers is short, such as with built in speakers on a stereo TV. TVS NIGHT Large sounds, such as explosions, are suppressed, but the quieter sounds are unaffected. This feature is useful when you want to hear the dialog and enjoy the surround sound effects of "TVS WIDE" at low volume. TVS STANDARD Creates three sets of virtual rear speakers from the sound of the front speakers L, R without using actual rear speakers shown below.
