Prints what you type, Im using a Dymo Push the spool wheel back to the left, squeezing the labels firmly between the two spool wheels. Alternatively, a piece of adhesive tape could be wrapped around the spool axis. This will prevent the spool wheel from sliding easily. A label got stuck inside of the Labelwriter.Together with the DYMO LabelWriter a cleaningcard was delivered. Feed this card a few times through the LabelWriter, in order to remove label. If the label remains stuck, try to gently pull it out of the LabelWriter. If the problem persists, the Labelwriter needs to be repaired. Return

the LabelWriter to your dealer, who will handle the repair procedure from there. Thanks please keep updated. please do rate Labels are genuine Dymo, right way round, correctly positioned, but blue light keeps flashing. Since you are sure the labels are not run out the only thing it can be is the labels are not loaded properly, double check the loading. How do I change this to normal Ensure the printer is turned on. Insert new batteries, charge battery pack, or plug in power adapter.

Remove power adapter and batteries, and then reattach power to restart the printer. The reason for the 1 star is that, the display is no long working, you are able to. It will not feed the tape through the print rollers when the PRINT button is pressed, the roller is turning How do I leave a blank line space. When I print the label it reverts to single spacing and not the double. Programmers manual page 23 The user guide mentions nothing so it is down to programming. An easy way would be to insert a period, on the blank line. Answer questions, earn points and help others. It features a simple interface, complete with symbol keys, and prints longlasting labels with industrial strength adhesives. RHINO labels can adhere to curved, textured, and highly textured surfaces. They are printed via a thermal transfer technology, which resists moisture, heat, and chemicals. The splitback label design makes them easy to peel from their backing. The printer is compatible with flexible nylon, permanent polyester, metalized permanent polyester, vinyl, heat shrink tubes, and nonadhesive tag labels from RHINO. Electrical key for commonly used Electrical symbols. Flag key for printing 2 sided labels, ideal for cables and wires. Safety key for commonly used Safety symbols. Serial key provides automatic incremental printing. Vertical printing for labeling of racks, bins, etc. Supports italicized, underlined, and boxed text. Powered by 6 AAA batteries not included. Prints 2 lines of text in 3 type sizes. Three styles of printing Normal, Italic, and Outline, as well as Underline and Box. Lengths of tapes can be set manually or automatically. Units of measure in inches and millimeters. Language selection key English, French or Spanish. Labels Tapes for RHINO 1000 come in a variety of colors and styles white and yellow flexible nylon tape, white and yellow heat shrink tube, white and metalized poly tape, white, yellow, orange, red, and green vinyl, plus white and yellow nonadhesive tags.
