bose 191 manual

We have 4 Bose VIRTUALLY INVISIBLE 191 SPEAKERS manuals available for free PDF download Owners Installation Manual, Installation Manual, User Manual. The instructions in this guide are specific to that type of installation only. Virtually Invisible that delivers the type of clear, lifelike sound and even coverage known as Bose Stereo Everywhere What makes this speaker better also makes it different When installed, Virtually Invisible apparent is their advanced speaker enclosure design, shown in Figure 1. Check to be sure the carton includes all the parts shown in Figure 2. If any part of the speaker pair appears damaged, do not use them. Notify Bose or your authorized Bose dealer immediately. For Bose contact information, refer to the address list included in the carton. The location you choose will affect the procedure for installing them. Do not attempt to nail, cut, or drill on that surface area. Puncturing the speaker enclosure with a tool will seriously damage the speaker. Figure 5 Cautions against unseen danger, such as a electri. CAUTION If you are unsure of your ability to complete this process, contact a professional installer. WARNING Use eye protection and be sure to observe all safety precautions while using a drill or cutting tool Figure 8. Figure 10 A 22inch 55.9 cm length of sturdy wire bent in two. Refer to "Drill a pilot hole for testing the wall space". If necessary, use tape to hold the template temporarily in place see TAPE HERE on the template. If the insulation found there is malleable, you can cut and remove some of it from both above and below the speaker hole to make room for the speaker. Pulling the wire up and out, 36 cm of wire to the left a and securing it with tape b. 2. Use tape to temporarily affix the loose end of the wire above and to the left of the hole Figure 18b. An error here will adversely affect speaker performance. Also be sure to tighten each screw securely, but not enough to cause undesirable compression of the wire. <http://www.rachelledelcroix.nl/upload/computer-networks-a-systems-approach-peterson-solution-manual.xml>

When the grille lines up flush with the frame of the speaker, it is seated properly. This is optional, however, and Bose cannot be responsible for the quality of adhesion or finish of nonfactory applied paints. There are different techniques for painting the grille and painting the frame. Be sure to use paint that is appropriate to the technique you choose. It protects the tile from bearing the weight of the speakers. Instructions are included with the kit. You will need to mount an openbacked junction box in the wall near the receiver or amplifier Figure 28. Use each regularshaped cutout as the patch for the wall when you finish. This can complicate the installation, requiring you to trim and push malleable insulation out of the way. You will need to wear eye protection and gloves for working with fiberglass insulation. Customer service For additional help in solving problems, contact your Bose dealer. Instructions included. For further information or to order accessories, contact your Bose dealer. Or, to call Bose directly, refer to the address list included in the carton. Eine Liste mit Kontaktinformationen finden Sie im Versandkarton. Si el aislamiento que encuentra es maleable, puede cortarlo y retirar la parte que necesite por encima y por debajo del orificio para que quepa el altavoz. El marco evita que el altavoz se salga del hueco. Las instrucciones se incluyen en el kit. O bien, para llamar a Bose directamente, consulte la hoja de direcciones incluida en el paquete. N'essayez pas de clouer, couper ou percer cette surface. Si vous tracez une ligne entre les enceintes frontales gauche, centre et droite, cette ligne devrait avoir la forme d'un V. Toute erreur nuirait aux performances sonores de l'enceinte. Reportez-vous aux instructions fournies avec le kit. Pour une installation dans une nouvelle construction, Bose propose un kit de montage pour deux enceintes. Il vous suffit de consulter la liste des adresses figurant dans le carton d'emballage. Pour contacter Bose directement, consultez la liste des adresses figurant dans le carton d'emballage. Bose beveelt aan om deze luidsprekers uitsluitend in een houten frame of een soortgelijke constructie te installeren waarbij er genoeg ruimte tussen de balk is, zoals bij constructies in een wand of plafond met balken van 5 x 10 cm of 5 x 15 cm. Virtually Invisible levensechte geluid en de gelijkmatige spreiding leveren die bekend staan als de Bose Stereo Everywhere Dat wat deze luidspreker beter maakt, maakt hem tevens anders De Virtually Invisible zijn. Neem onmiddellijk contact op met Bose of uw Bosedealer. Zie de adreslijst die bij de doos is ingesloten voor contactinformatie. De gepaste installatieprocedure hangt af van de gekozen plaats. Gebruik geen spijkers en snij of boor niet op dat oppervlakgebied. Als u de luidsprekerkast met een scherp gereedschap doorboort zal dit ernstige schade aan de luidspreker veroorzaken. Plaats deze luidspreker niet op het horizontale midden tussen voorste de linker en rechterluidsprekers.

Als u denkbeeldige lijnen trekt tussen de voorste linker, midden en rechterluidspreker, vormen deze lijnen een "V". WAARSCHUWING Als u niet zeker bent of u deze procedure kunt voltooien, dient u contact op te nemen met een professionele installateur. WAARSCHUWING Gebruik oogbescherming en volg alle voorzorgsmaatregelen wanneer u een boor of slijptol gebruikt Figuur 8. Figuur 8 Waarschuwing tegen boren zonder oogbescherming WAARSCHUWING Zorg dat de gekozen plek veilig is om te snijden. Figuur 10 Een stevige draad met een 7,6 cm lengte van 55,9 cm gebogen op twee plaatsen. Zie "Een geleidegat boren om de wandruimte te testen" op pagina 9 en herhaal die stappen. Als de locatie voor de eerste luidspreker goed is, maar niet voor de tweede, dient u mogelijk beide luidsprekers op een nieuwe locatie te installeren. Gebruik plakband indien noodzakelijk om de sjabloon tijdelijk op zijn plaats te houden zie "TAPE HERE". Als de aangetroffen isolatie plooibaar is, kunt u boven en onder de opening een gedeelte ervan wegsnijden om ruimte voor te luidspreker vrij te maken. Op deze manier zit de kabel niet in de weg totdat u de luidspreker gedeeltelijk in de wand hebt geplaatst en klaar bent om de aansluitingen te maken. Als u hier een fout maakt, heeft dit een nadelige invloed op de prestatie van de luidspreker. Zorg dat u elke schroef goed aandraait, maar niet zo vast dat dit ongewenste compressie van de kabel veroorzaakt. Het frame voorkomt dat de luidspreker helemaal in het gat glijdt. Zie Figuur 17 op pagina 15 als u het frame om dient te draaien om het logo van Bose juist op de voorkant van de luidspreker weer te geven. Zie Figuur 25. 3. Werk omhoog naar de bovenkant van het roosterframe. Gebruik uw beide handen om de roosterlipjes in het frame te haken. Denk eraan dat u de roosterlipjes niet permanent buigt. Dit is echter optioneel en Bose is niet verantwoordelijk voor de kwaliteit van de hechting of afwerking van niet in de fabriek aangebrachte verfsoorten.

<http://www.diamondsinthemaking.com/content/3k-engine-manual>

Draai het rooster vervolgens 180 graden en spuit het opnieuw in een hoek van 45 graden. Dit beschermt de plafondtegels tegen het dragen van het gewicht van de luidsprekers. U dient een kabeldoos met open achterkant in de wand te monteren in de buurt van de receiver of versterker. Gebruik een rechthoekige uitsnijding als bedekking voor de wand die u afmaakt. Dit kan de installatie moeilijker maken, aangezien u de plooibare isolatie moet afknippen en uit de weg moet drukken. Verdere gegevens over de garantie staan op het garantiebewijs bij de luidsprekers. Gelieve het informatiegedeelte in te vullen, af te scheuren en terug te zenden naar Bose. Voor informatie of om accessoires te bestellen, dient u contact op te nemen met uw Bose dealer. U kunt ook rechtstreeks contact opnemen met Bose m.b.v. de adresinformatie die bij de doos is ingesloten. Ask your question here. There are many factors to consider when choosing a location for your speakers. Innovative engineering and advanced design enable these speakers to deliver Bose quality performance for big impact in spite of their small size. What isn't apparent is their advanced enclosure design, shown in Figure 1. It ensures predictable performance wherever the speakers are installed, regardless of the size and shape of the wall space. It also helps prevent the speaker sound from invading other rooms, a common problem with installed speakers of more conventional design. Nederlands STEPS TO INSTALLING. If you encounter insulation behind the wall You can expect to find insulation in an exterior wall and sometimes in an interior wall. If the insulation found there is malleable, you can cut and remove some of it from both above and below the speaker hole to make room for the speaker.

Other types of insulation will be difficult or possibly dangerous to handle. CAUTION Beware of hidden nails when reaching into the wall to remove insulation. CAUTION Wear gloves and protection for your mouth, nose, and eyes before handling insulation that contains fiberglass. Reorienting or changing speaker frames. Reorienting the rectangular frame logo. If you intend to mount a rectangular framed speaker upsidedown due to a lack of space below the hole, you will need to reorient the logo before inserting it into the hole. There are four frame screws, labeled GRILLE, that hold the frame in place See Figure 17 below and Figure 23 on page 18. Do not confuse them with the dogleg clamp screws that are labeled WALL. Do not insert the speaker into the wall without a frame attached. The frame keeps the speaker from falling into the wall. Figure 17. Replacing the rectangular speaker frame with the round frame. Installing round speaker frames. If you intend to use round speaker frames, install them now by removing the four screws that hold each rectangular frame and using them to secure the round frames Figure 17. The logo is on the round speaker grille, which will be positioned later. Insert and wire the speaker. You need a Phillipshead screwdriver and optional tape to complete this step. When wire is within reach of the hole you have cut, follow the procedure below 1. From inside the newly cut speaker hole, locate and pull out 14 in. 36 cm or more of the prewired speaker cord Figure 18 on page 16. to connect the speaker wire and complete the installation. I purchased 6 of the 191s and mounted in the ceiling with equal separation front to back. Because of the length of the longest run, I used 12 gauge multi strand copper wire. The only additional speaker I have is a Bose center channel. If I had to do it again I would have used two 591s at the front center and rear center for a total of 8 speakers. I have 7 sets of Bose speakers indoor and outdoor and have never been disappointed.
