Mikor a MUTE hibát kerestem, volt olyan eset is, hogy nem futott meg a kimenet és szolt a basszus rendesen, de ujboli bekapcsolaskor ha nem halkítottam le a potit akkor kikapcsolt a rele, ha lehalkítottam akkor jó lett, de nagyon susogott, arra hasonlított mint amikor FM radio nincs az allomason, van egy közös mute tranzisztor az kapcsolja az összes többi, ha azt kizsádm az akkor is megmaradt a susogas, szerintem visszafelé jött valamelyik oldalról ezért szedtem ki mindegyik oldalról a tranzisztorokat, nem akartam bajlódni vele, hogy honnet jön a susogas vissza. Anil M. Dubey 5.0 out of 5 stars It has only been few days since I have it and I thought of sharing my experience. I watched couple of Bollywood movies and experience was awesome. It sounded as if I was in a cinema hall. Sound quality is awesome and 5.1 Dolby Digital DTS Surround Sound System does its magic. You cant tell the difference between real and system generated sound, its that real. If you are interested in a 5.1 Dolby Digital Surround Sound System to get a cinema hall experience in Home, this system is for you. I am not yet sure if I can say the same for AUDIO CDs. I am not yet able to test it enough to give the same high remarks. One thing I have noticed is that Surround Sound System for Audio CDs is not as good as it is for DVD movies. Since I am still learning my way through this, I will not like to give it any thing less than a 5 star rating. If I do find that Audio experience for CDS is not as good, rating might change but thats for later date. Some quick notes 1. Setup was a easy. It took less than an hour to hook all the wires and cables etc and power it up. 2. I have not yet activated the ADAPTIQ system.
