All you have to do is email them and they will send you a URL that you can download the explodedview parts manuals from for free. I have used it a few times to get the correct part number for something before calling the dealer. It sure does surprise them when you tell them what the number is before they look it up. Like I said, Its free. Just to be clear, there are two manuals of interest. One is the workshop manual.that is available from Mikes site for the BX23 I think and the other is the parts list with exploded diagrams available from Tractorsmart.com. These work together and are different animals.I have tha parts manual already. Len Pretty much I think. My guess is that most info is shared.I downloaded the manual chapters from Mikes site, even though I had already purchased the workshop manual for my BX2200.since I expect most if not nearly all to be the same in my case.and it is nice to have it in PDF form, rather than hard copy only.
