It was copying ok yesterday, and now to. Posted by chudyca 6 years ago Canon PC790 Answers Owners Manual For Pc1742 Posted by jpiano 6 years ago Canon PC1 Answers I Wont Manual Of Pc 921 Canon Photocopier Also, if its blinking in a specific. Can be a problem on this type of machine. It is lightly used and about 3 years old. I changed the toner cartridge and the problem persists. Cannon support suggests that. Ive checked the plugs, opened and shut it, and cant find the problem power fuse blown on power supply board, replace it. E010 is a code indicating main motor failure. In actuality it rarely fails. Look for a broken belt or gear in the Main Motor train. Good. The machine is not used that often but has always run. Useful features such as Reduction and Enlargement, Zoom, Photo Mode and Toner Saver, plus multiple copying for increased productivity make the PC940 the perfect copier for all your copying needs. Products and names mentioned are the property of their respective owners. To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness.

See All Buying Options Add to Wish List Disabling it will result in some disabled or missing features. You can still see all customer reviews for the product. Its fairly quiet, and gives us good quality copies. What more can you ask. Another good thing about this one is, there a good quality generic toner cartridges available on the web. That really is a plus when your doing a lot of copies per month, like we are. Please try again later. Its fairly quiet, and gives us good quality copies. That really is a plus when your doing a lot of copies per month, like we are. Please try again later. Please try again later. Doc 5.0 out of 5 stars I highly recommend. Easy to use and dependable. No problems ever. Look on line for replacement cartridges cheaper. Please try again later. Please try again later. Nick H. Terry 5.0 out of 5 stars Thank you so much. Please try again later. Please try again later. R. Miller 1.0 out of 5 stars Please try again later. Please try again later. Dr Dave 5.0 out of 5 stars It warms up instantly and makes great copies. The buttons are easy to use and intuitively laid out. Please try again later. Please try again later. H. Geisler 5.0 out of 5 stars Hard to say how well it uses toner but we surely got between 1000 and 2000 copies on the original toner. We use it

regularly though not heavily, and it has been smooth, easy, and versatile. It warms up quickly and its even fairly quiet. Paper and toner load easily, the manual bypass is easy, the controls clear. I don't know if it would handle everyday classroom or office use but it seems sturdy enough for moderate use. Prints are very good for most purposes. We think it's a great deal, one of the best machines of this type we've bought. Please try again later. Please try again later. English Teacher 4.0 out of 5 stars Often a class would need clarification, which could be easily obtained by throwing an overhead up on the screen or discussing some extra review sheets.

I am able to run overhead sheets easily through this copier, make a fast copy of a note home to a parent, or use it for a variety of jobs. Yes, the cost came out of my pocket, and yes, it is worth every penny. My copier is one year old, and I am purchasing my third toner cartridge. Please try again later. Please try again later. Donna Pistole 5.0 out of 5 stars It has no warmup time at all, the paper tray is ample and you can use a side slot to get a quick copy on a different color or type of paper if you want. Fairly quiet and fast as well. Quite a good buy, really. Please try again later. Please try again later. JNM 1.0 out of 5 stars Please try again later. Please try again later. Ron the Accountant 4.0 out of 5 stars Setup and operation instructions very clear and easy to follow including installing the toner cartridge. Copies very clear and sharp. No dark edges on copies as I have experienced on another copier Sharp. Copies come out smooth with no curls and are straight. I mainly use the copier for small quantities. Only problem I encountered was a paper jam when making 40 copies of 10 pages. This I think could be avoided if I had fanned the copier paper before loading. I have been using letter paper with 84 brightness with better than average quality. Copier is fairly quiet. It is a very handy tool and very convenient for immediate copies at home. I did not rate the copier a 5 star because I want to see how reliable it will be over time. Please try again later. Please try again later. Maybe you can upload a photo for the Canon PC940 This service manual consists of the following chapters. Chapter 1 General Description introduces the machine's features, specifications, Chapter 2 Basic Operation explains how copies are made on a stepbystep basis.

Chapter 3 Exposure System discusses the principles of operation used for the It also explains the timing at which exposure related Chapter 4 Image Formation System discusses the principles of operation used for the It also explains the timing at which image Chapter 6 Fixing System discusses the principles of operation used for the machine's Chapter 8 ADF explains the principles of operation of the ADF in view of electrical and It also shows. Chapter 9 Installation introduces requirements for the site of installation, and shows Chapter 10 Maintenance and Servicing provides tables of periodically replaced parts and. Appendix contains a general timing chart and general circuit diagrams. OEM Products come with a manufacturer warranty only. The amount of pages can vary depending upon the amount of ink printed onto each page. 5% page coverage is a standard Canon specification We stand behind our products 100%, as these are not manufactured by Canon. Regular ink dries quickly, which is why cartridges for inkjet printers do not last long. Laser Printers use toner, which is ink in the form of powder. Then, you must remove the exhausted toner cartridge by carefully pulling it out of the toner cartridges slot. Finally, you must close the main unit by gently pushing its marked area down, and then test your Canon PC940.

This product comes with a 6 month Warranty against any defects including free replacement. We stand behind our products 100%, as these are not manufactured by Canon. We stand behind our

products 100%, as these are not manufactured by Canon. We stand behind our products 100%, as these are not manufactured by Canon. With its Single Cartridge System, the Canon PC940 is a hasslefree copier suitable for users that prefer a maintenancefree copying system. Pros The Canon PC940 can produce 13 copies per minute for letter paper types and 11 copies for legal paper types for every minute. It can also produce up to 100 copies for its multiple copying options. For zoom options, the Canon PC940 has a standard of 100% with preset reductions of 70%, 78% and 86%. Preset enlargement is at 141%. However, it can do manual zoom in 1% increments, making the Canon PC940 capable of making customized and personalized sized copies. For first time copy outputs, the Canon PC940 is quite fast, able to churn out results in as fast as 10 seconds. Warm up time is more impressive, as the copier is ready in less than a second at 20 degrees Celsius. The Canon PC940 uses an electrostatic transfer for its copying method, while for its fixing system, the Canon PC940 employs Canons RAPID Fusing System which enables this copier to produces copies in a very fast manner without warm up time consumption and needless waiting. Acceptable originals include sheets, books and even 3dimensional objects. The Canon PC940 also has exposure controls that include automatic, manual, photo mode and also tone saver. Copy sizes that are supported include business cards that have a 2" x 3.5" inch dimensions up to letter with 8.5" x 11" inches and also legal paper types with 8.5" x 14" inches. Legal paper types of this measurement is also the maximum accepted paper size. Paper compatibility include plain paper, postcards, OHP film and labels. One of the best features of the Canon PC940 is its powersaving capability.

Maximum power consumption for the Canon PC940 is only at 0.9 kW, making it one of the most power efficient copiers around. For its paper handling capability, the Canon PC940 has a 250sheet front loading paper cassette and a singlesheet manual bypass that allows copy production on various media types. The Canon PC940 copy board also does not move as it uses a stationary platen, which allows for saving work space, perfect for users who do not want their copiers to occupy unnecessary spaces. The Canon PC940 is also a relatively lightweight copier, with its weight only registering approximately 42 lbs including its cartridge. It is also designed in a compact manner, with a sleek white exterior finish that complements its box type design. The Canon PC940 has dimensions of 19 x 17 x 11 inches, quite suitable as a home and personal copier. Cons As a basic home copier, the Canon PC940 covers the bare essentials for producing copies; however, the Canon PC940 could use more features to increase its appeal to users especially for small office users. First, the Canon PC940 only has a modest speed while some copiers in the market can produce much faster speeds. Also as a stand alone copier, the Canon PC940 can use the color copy capability. As a monochrome copier, a lot of users might prefer a different copier that can produce both monochrome and color outputs, especially since home user needs mostly include color copies, especially for image copies and graphics. Also, its duty cycle is a bit low, owing mostly to it being built mainly as a home and personal copier. Equipped with a 250sheet frontloading cassette and legalsize capability, the PC940 is suitable for highvolume productivity. Canons patented Single Cartridge System contains most everything that can run out or wear out toner, drum and development unit in one easily replaceable cartridge, for virtually maintenancefree performance.

Best value Genuine 2.9p per page For most cartridges this is based on 5% coverage on A4 paper. These numbers are based on manufacturer quoted values and are for comparison purposes only. I decided to take the cheap route in case it made no difference. The cartridge arrived next day, was fitted easily and the quality surprised me, better than I can remember. How long it will last remains to be seen but so far I am more than satisfied and indeed staggered at how good the results are. I do not make many copies but it could be that the toner was several years old and that was part of the problem. It could have been that I ignored the manufacturers instructions and used paper that had printing on the other side printed from a different machine. If I had known I would have exchanged the cartridge long ago. Full marks 100% By Ken Morgan on 24 Jan 2020 Excellent Good price, Excellent delivery the product is first class print quality very good Epson 245 printer Would recommend the product with confidence to anyone 100% By Norman Jackson on 7 Jan 2020 First class product at first class price with excellent service thrown in always use them Page You're currently reading page 1 Page 2 Page 3 Page 4 Page 5. Manufactured to strict quality standards, our premium cartridges produce high quality prints and are very reliable — in fact, we use them in our offices and recommend them to friends, family and other businesses. Premium brand recycled toner cartridge Premium brand recycled toner cartridge Made using recycled Canon cartridges, this cartridge is a direct replacement for the Canon version. Manufactured to strict quality standards, our premium cartridges produce high quality prints and are very reliable — in fact, we use them in our offices and recommend them to friends, family and other businesses. 3year warranty 3year warranty on our ownbrand cartridges We are proud of our ownbrand cartridges, so we've made trying them a no-brainer. If within three years of purchase you have any problem whatsoever, we'll happily offer either a replacement or a refund. Returning items is easy—it takes just a few minutes. But our return rate is very low, so you'll be unlikely to need it. We are confident that no other ownbrand cartridges are better than ours. They produce vibrant prints with accurate colour densities and dark blacks—and their page yields are as good as the genuine, if not better. Give them a try, and see why our customers love them. Our ownbrand cartridges are incredibly reliable for three reasons 1. We are the UK's biggest seller of ownbrand cartridges, and we have invested a lot in optimising them. 2. We are dedicated to quality. Every ownbrand cartridge is performance tested before it leaves the factory. 3. We constantly monitor customer feedback, and quickly resolve any issues. Printer protection guarantee Our cartridges won't damage your printer—guaranteed Some people worry that ownbrand cartridges might damage their printers. We know from experience that ours don't.
