CarePAK offers tollfree Canon technical support and includes Canon's superb InstantExchange product replacement program. For further information about extending your Canon service and support, call 1800 3852155, or visit our Web site at www.canonesp.com. All statements, technical information and recommendations in this manual and in any guides or related documents are believed. Using the machine in such conditions may result in fire or electrical shock. Then contact your local authorized Canon dealer or the Canon help line. Pulling on the power cord may damage the cord and cause a fire or electrical shock. However, if the machine is unplugged during printing, the FINE Cartridge is not protected with the cap that prevents the ink from drying. Then, contact your local authorized Canon dealer or the Canon help line. If a child ingests any ink, consult a doctor immediately. Do not shake FINE Cartridges Ink Cartridges. Ink may leak out and stain clothing or the surrounding area. Never touch the nozzle and the gold terminal. The following symbols are used to indicate important instructions. Be sure to obey these instructions. Indicates a warning concerning operations that may lead to death or Warning injury to persons if not performed correctly. The list provided is nonexhaustive. When in doubt, check with a legal representative in your jurisdiction. Open the tray before you start copying or printing. When not being used, keep it closed in the machine. 7 Direct Print Port Used to connect a PictBridgecompliant or Canon Bubble Jet Directcompatible device to the machine when printing images directly from the device. 8 Platen Glass Used to load a document to be processed. FINE Cartridges are available in two types, Color on the right and Black on the left. 12 Scanning Unit Used to scan a document. This ensures the FINE Cartridge is covered to prevent it from drying out.http://farcornersafaris.com/Uploads/john-deere-manual-weather-station.xml

If the printed area is traced with a highlight pen or paintstick or stained with water or sweat, ink may blur. Before Printing other than genuine Canon paper Chapter 1. Paper Type Model Super White Paper SW201 High Resolution HR101N Approx. 80 sheets. Printing from your You may be able to load other computer envelopes, but Canon cannot guarantee consistent performance. Do not use the following types of envelopes since they may cause. Place a stack of paper print side up in the Auto Sheet Feeder 1, pinch the Paper Guide A and adjust it to the left side of the stack 2. Set the Paper Thickness Lever to the correct position for the paper. Prepare the envelopes for loading. Important Before Printing Press down firmly on the edges of the envelopes to make the folds crisp. Also, press firmly on the area that corresponds to the edges of the back flap. Load the envelopes in the Auto Sheet Feeder with the short side down. Set the Paper Thickness Lever to the right. Load the paper in the Auto Sheet Feeder. For details on paper, see page 17.The Paper Lamp indicates the selected paper size and type.Custom copy ratios You can specify the copy ratio as a percentage to reduce or enlarge Zoom copies. Note Follow this procedure Load the paper in the Auto Sheet Feeder.Repeating An Image On A Page Image Repeat This feature enables you to copy an image multiple times onto a single page. You can set the machine to automatically select the number of times it repeats the image, or you can specify the number. Important Note FittoPage Copying MP150

This feature enables you to copy images so that they are automatically reduced or enlarged to fit the paper size you select. Follow this procedure Load the paper in the Auto Sheet Feeder. Memory Cards Supported By This Machine Supported memory cards are as follows Memory Cards which can be inserted directly Memory Cards which can be used through a special adapter Purchase a CompactFlash Card Adapter for xDPicture Card separately.http://www.hurtglass.pl/upload/john-deere-manuals-l120.xml

SmartMedia Card Install this card into the right card slot.Simply scanning a Photo Index Sheet prints the selected photographs according to the selections you have made. If more than 37 photographs are to be printed, the machine prints them Note on more than one Photo Index Sheet. 1 Select the paper size and type. 2 Select date printing as necessary. 3 Mark this to print one copy of each photograph. Good 1 Check mark 2 Line only 3 Light Important Load the paper selected on the Photo Index Sheet in the Auto Sheet Feeder.Important Note Print Index You can print an index of all photos saved in the memory card on what is known as an index print. Turn ON the machine and load the paper in the Auto Sheet Feeder. Insert the memory card into the Card Slot. See "Inserting A Memory Card" on page 37.To select the photos to print, first print the index and note the photo numbers assigned to them. You can also print a range of photos according to the shooting dates of photos you select. Turn ON the machine and load a sheet of stickers in the Auto Sheet Feeder. You can load only one sheet of stickers at a time. Note Turn ON the machine and load the paper in the Auto Sheet Feeder. Insert the memory card containing the DPOF information into the Card Slot. See "Inserting A Memory Card". Depending on the functions you use, some setting items cannot be specified in Note combination. The new setting is not applied unless you plug the USB cable back in. Printing With Windows Menu and command names may differ between software applications, and Note more steps may be required. For details, refer to the documentation for each software application you use. For print settings, see the Onscreen Manual.For details, refer to the documentation for each software application you use.Note Chapter 5 When you select the print mode appropriate to your document from. Then you can process that data by using the supplied application software to create original images.

This procedure varies depending on the application software. For the detailed procedure, refer to the manual of the application software you are using. Chapter 6 Scanning Images. Doing so may result in an electric shock, fire, or damage to the device. Note Turn ON the machine. A Canon "Bubble Jet Direct" compatible digital camera. Confirming Or Changing The Device Settings To change the paper size or paper type, operate the device to select the PictBridge print setup mode and confirm or change the settings. This size can be selected only for Canon PictBridge compatible devices note that it cannot be selected for some models. Replace the empty FINE Cartridge with a new one. Important Do not touch the transparent film A, film cable B, ink absorber sponge Caution part C, or any metal parts. Chapter 9 Handle FINE Cartridges carefully to avoid staining your clothes or the surrounding work area. Important Insert the new FINE Cartridge. Black FINE Cartridge should be installed into the left holder B and Color FINE Cartridge should go into the right holder C. Important Chapter 9 To maintain optimal print quality, we recommend that you use Canon brand FINE Cartridge. Replenishing ink only is also not recommended. Replace the FINE Cartridge promptly. Do not leave with the FINE Cartridge removed. Should missing characters or white streaks appear despite sufficient ink Note levels, see "When Printing Becomes Faint Or Color Is Incorrect" on page 76. Canon IJ Status Monitor appears. It also appears automatically during printing. When the "!" mark appears on the Low Ink Warning The ink level of the FINE Cartridge showing the "!". However the same printing quality cannot be expected, compared to printing with both cartridges.In this case, the remaining level of ink cannot be calculated correctly. If you try printing when "" mark appears, the following message appears and printing stops.Follow the procedures below to clean these nozzles.

Before Performing Maintenance Note Remove the FINE Cartridge once, then reinsert it into place. See "Replacing A FINE Cartridge". Use this function when the printed results are blurred or the color is incorrect. Printing The Nozzle Check Pattern Load A4 or Lettersized plain paper in the Auto Sheet Feeder. If the ink level is low, the nozzle check pattern is not printed correctly. If Note the ink level is low, replace the relevant FINE Cartridge. See page 68 If the lines are broken 1, or white lines 2 are present in the pattern A, clean the FINE Cartridge. If deep FINE Cartridge cleaning does not improve the print quality, Note contact a Canon service representative. Chapter 9 Routine Maintenance. Be sure to turn OFF the power and disconnect the power cord before cleaning Caution the machine. Do not use tissue paper, paper towels, or similar materials for cleaning; they can stick to the components or generate static charges. The sheet of paper is automatically fed in and then out of the machine. If there are no signs of improvement after performing three times, contact a Note Canon service representative. Chapter 9 Routine Maintenance. Periodic cleaning of certain parts on the inside of your machine is recommended to maintain a high standard of printing quality. The parts can be cleaned in the following ways See "Cleaning The Bottom Plate". If dust or dirt can be seen on the paper, repeat the cleaning process. If the discharged paper still appears dirty after you have run this clean Note process, the inside of your machine is probably extremely dirty. This section provides troubleshooting tips for the most common printing Note problems. If you cannot find appropriate tips for your problem, refer to the on screen manuals. Depending on the model or brand of your device, you may have to select a print mode compliant with PictBridge before connecting the device. Canon recommends to use new genuine Canon Cartridges in order to obtain optimum qualities.

The FINE Cartridge may not be the compatible with this machine. Install the appropriate FINE Cartridge. The size of the document cannot be correctly detected or the document is too small when the FittoPage copying is selected. Incorrect paper type. FINE Cartridge nozzles clogged or shifted. Print Quality is not set properly. Media not loaded printside up. Restart your computer. It may solve the problem. Delete an undesired print job, if there is any.The hard disk does not have enough available space. When Copying Cause The document is not loaded correctly. The quality image quality displayed on the LCD is not suitable for the document. Chapter 10 Action If the inside of the machine is dirty, printed paper may be smudged. Follow the steps described below to clean the inside of the machine. Thick paper is used. Media is curled. The media type is not selected correctly in the printer driver. Paper is loaded incorrectly. Troubleshooting Action Check to see if the paper you are printing on is too thick. See "General Paper Guidelines". See "Paper Types You Cannot Use" on page 16. Ensure that the media type selected on the Operation Panel matches that of the paper loaded. If you cannot remove the jammed paper or the error still persists, contact a Canon service representative. Action Make sure all required boxes on the Photo Index Sheet are filled in, and that the sheet is set in the correct position and orientation on the Platen Glass. Prepare a new FINE Cartridge. If the CDROM icon is not displayed on the desktop, there is a problem with the CDROM. Contact a Canon service representative. Chapter 10 Action Troubleshooting. Multiple devices connected Disconnect all other devices but the machine from the port.Observe the following outside the supported area.Error arising from Some application softwares do not support multiple image scanning. Scan each application software item individually without using the MultiScan or MultiCrop function.

Scanned Image Is Not Displayed Properly Cause Scanned image prints out Set the printing size in the application program. Once the waste ink absorber becomes completely full, printing cannot be done until the waste ink absorber is replaced. Canon recommends to contact a Canon service representative as soon as possible. Error No. 2001 Is Displayed. If the machine is connected to the computer, you can align the FINE Cartridge using the MP Driver. Follow the procedures described in the Printer Driver Guide.Canon support staff are trained to be able to provide technical support to satisfy customers. Attempts by customers to repair or take apart the machine will invalidate any

Caution warranty regardless of whether the warranty has expired. Recommended printing Canon recommends that you print within this area. area dark blue Printable area light The area where it is possible to print. Note that this uninstall procedure will uninstall all guides.If you do not have the original packing materials, pack the machine carefully using protective material and a sturdy box. Turn the machine OFF and unplug the machine. Printing on this paper is available only when the Layout function on your camera has a 16up option. See "Recommended Paper" on page 17.
