A Comenda PROhood 2 LC900 Pass Through Commercial Dishwasher at an Amazing Price. The Comenda PROhood 2 LC900 Industrial Dishwasher is a high capacity fully programmable Hood Type Dishwashing unit supplied by Intellico capable of handling up to 860 plates per hour, or around 140 covers per hour. Ideal for straight line or corner operation, the warewashers 440mm working height and 500mm dishwasher baskets mean it can accommodate the largest of items. Features include a Deepdrawn tank with rounded corners ensuring maximum hygiene and easy cleaning. Top and bottom stainless steel wash and rinse arms provide excellent washing results. The vertically positioned self draining wash pump, permits complete wash water draining when the dishwasher is drained down at the end of service, helping to eliminate odours. Built-in rinse aid and detergent injector guarantees excellent drying results. Safety micro switch prevents flooding if the machine is opened during use and the safety thermostat on the booster heater stops operations if the unit is without water. Cr 250 2016 Workshop Manual.

Supplied for 3 Phase electrical supply unless changed to single Phase before adding to cart. It can be configured on site as either a 3 phase dishwasher or single phase dishwasher. The 21 litre wash tank with self draining pump, together with a door micro switch and thermostats ensure safe operation. A manual operation panel provides easy to use button control. The patented WRAS washing system consists of two separate rows of wash nozzles per wash arm with a row of rinse nozzles in the middle. The double row creates two separate water blades which hit the dishware simultaneously, providing a highly effective cleaning action by significantly increasing the contact time between the water and dishes. Transportation Safety Manual. Comenda lc 900 dishwasher manual Dishwashers question. Search Fixya. I am trying to help a friend that has a Comenda LF322 glass washer find a user manual. Comenda WS12 Water Softener. Maintenance of the unit is simple as the

filters on the tank, washing systems and rack holder can be changed in seconds. This Comenda Hood Type Dishwasher typically uses 50% less water and energy than a similar sized and speed pass through or hood type dishwasher. Markem 5000 Manual. Internet Access by UserName and Password to the technical documentation and catalogues is only reserved to registered users with the manufacturers permission. Login to post Water pumps in by water pressure. Solenoid lets in hot or cold or both. Near the filler should be a dial of some sort Can you please let me know if you know of where to obtain a download of one Remember, its an air cooler, not an air conditioning unit.

Works fine as a floor standing fan on L, M and H settings lo, med and high but, if you want the air to cool slightly, freeze the blue ice packs and then put them in the base of the unit and top up with cold water until the level indicator on the front says full red ball hits red arrow, like in a kettle. Then, turn on as normal and run the Cool function along with your desired fan setting L, M or H. I tend to add a few extra ice packs. The Cool setting drags a fiber membrane into the water and over the intake surface, thus cooling the air slightly. Nothing like real air con but better than nothing on a day like today. Swing throws the air around a little and Mode gives you bursts of air, and thats about it to be honest. I have powered off the machine at the mains for several hours. There are no lights showing on the console. Please advise next steps. No heated dry nor hi temp wash buttons. Answer questions, earn points and help others.
